# Assembly Instructions

## Banner stand assembly

Kit includes: Top rail, base, bungee pole set and carry bag

1 Assemble the bungee pole set.

2 Open out the stabilising foot.

3 Fit the bungee pole into the banner stand base

4 Lift the top rail to raise the graphic from the base.

5 Lean the banner stand backwards and continue to extend the graphic.

6 Secure the top rail cup onto the bungee pole.

**Hold the Top rail whilst lowering the banner, (do not drop) to prevent damage to the graphic.**

### Graphic attachment - Adhesive rail option

1 Rotate the rail end cap to expose the plastic adhesive rail insert.

2 Slide the rail insert from the top rail. Adhere the insert to the **front** of the graphic.

3 Slide the rail insert and graphic into the top rail. Close the rail end cap.

### Graphic attachment - Grippa rail option (ideal for textiles and PVC)

1 Using the Allen key supplied with the user instructions, loosen the top rail screws. Rotate the rail end cap to expose the steel flat bar.

2 Slide the flat bar from the top rail and remove the backing paper.

3 Adhere the flat bar to the **back** of the graphic. Slide the flat bar and graphic into the top rail. Tighten the screws to secure the top rail. Close the rail end cap.

### Graphic attachment - Base

1 Align and adhere the graphic squarely to the slider strip. (attach to front face of graphic)

2 Slide the graphic onto the leader strip.

3 Whilst holding the Top rail remove the locking pin from the base and gently allow the graphic to retract.

**After fitting, the graphic should be left for 24 hours before use, to ensure the adhesive bonds sufficiently.**
